

NURUL AWANIS BINTI NOOR SHAARIN

IT Support Engineer

Address : Kedah, Malaysia
Phone : +60 18-903 4590
Email : awanisshaarin0299@gmail.com

PROFESSIONAL SUMMARY

Dedicated **IT Support Engineer** with **over 2 years of hands-on experience** providing technical support, troubleshooting hardware, software, and network issues, and maintaining reliable IT systems in a fast-paced environment. Experienced in supporting end users, maintaining mobile applications using Flutter, developing automated reporting solutions using Python and Pandas, and assisting with data communication and network infrastructure projects. Recognised for strong analytical thinking, problem-solving abilities, and effective communication, with a proven ability to deliver practical technical solutions while ensuring excellent user support. Passionate about continuous learning, embracing new technologies, and contributing to organisational success through reliable IT support, system optimisation, and collaborative teamwork.

WORK EXPERIENCE

IT Support Engineer

Greenfinder Sdn. Bhd., Shah Alam, Selangor

Mar 2023 – Present

- Provided Level 1 technical support by resolving hardware, software, system access, and user account issues through the Jira ticketing system.
- Installed, configured, and maintained computers, software applications, printers, and system tools to ensure reliable daily IT operations.
- Troubleshot network connectivity, system performance, and application issues while providing timely technical support to end users.
- Maintained and enhanced the DACAP 2.0 Android application using Flutter and JSON, ensuring reliable functionality and continuous improvements.
- Developed automated reporting dashboards and operational reports using Python and Pandas to improve reporting efficiency and data accuracy.
- Assisted with data communication projects, Raspberry Pi deployment, Debian Linux configuration, and system testing to support network performance.

IT Executive Assistant Intern

Majlis Bandaraya Alor Setar, Kedah

Oct 2021 – Feb 2022

- Assisted in maintaining and monitoring the organisation's network infrastructure to ensure stable and secure network operations.
- Performed network troubleshooting and preventive maintenance to improve system performance and minimise technical disruptions.
- Configured VLANs to support efficient network segmentation, traffic management, and improved network security.
- Supported server installation, configuration, and deployment to enhance departmental application availability and system performance.
- Assisted in evaluating existing IT infrastructure and recommending improvements to optimise operational efficiency.
- Collaborated with the IT team to provide technical support and ensure reliable network and system operations.

EDUCATION

Bachelor of Computer Science (Hons.) in Data Communication & Networking

Universiti Teknologi MARA (UiTM), Arau, Perlis | 2022

CGPA: 3.34

Matriculation Programme

Kedah Matriculation College, Kubang Pasu, Kedah | 2018

PUBLICATION

- **Blinking Eyes Detection to Monitor Drowsy Driver Due to Fatigue Using MATLAB Cascade Object Detector**
Journal of Computing Research and Innovation (JoCRI), Volume 6, Issue 4, 2021.

ACADEMIC PROJECT

Open-Source E-Commerce Application Development

- Collaborated in the development of a full-stack open-source e-commerce platform using Java EE and Spring Boot, contributing to scalable and reliable web application development.
- Developed backend modules, including user authentication, CRUD functionalities, and core business logic to support system functionality.
- Integrated RESTful APIs and managed JSON data structures to enable seamless communication between backend services.
- Applied software development best practices by improving repository structure, code modularity, and application maintainability.
- Worked closely with team members throughout the software development lifecycle, from system design and development to testing and implementation.
- Strengthened practical knowledge of backend development, system architecture, API integration, and collaborative software development using GitHub.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA) Level 1
- Cisco Certified Network Associate (CCNA) Level 2
- Cisco Certified Network Associate (CCNA) Level 3

EXTRACURRICULAR ACTIVITIES

- Committee Member and Participant, Technology Awareness Program, supporting the organisation of technology-related activities and awareness initiatives on emerging digital technologies.
- Participant, International Research Colloquium, engaging in knowledge sharing and discussions on current developments in computing, networking, and information technology.
- Active participant in university sports programmes, demonstrating teamwork, discipline, leadership, and effective collaboration.

SKILLS & COMPETENCIES

Technical Skills

- IT Support & Helpdesk (L1 Troubleshooting, User Support, Incident Management, Jira Ticketing)
- Networking & Infrastructure (TCP/IP, VLAN Configuration, Network Troubleshooting, CCNA Levels 1–3)
- Programming & Application Development (Python, Java, Flutter, Spring Boot, REST API, JSON)
- Systems & Operating Platforms (Windows, Basic Linux Debian, Raspberry Pi, Software Installation & Configuration)
- Data Analysis & Development Tools (Pandas, MATLAB, SQL, GitHub, Microsoft Office Suite)

Soft Skills

- Problem Solving
- Analytical Thinking
- Communication Skills
- Teamwork & Collaboration
- Adaptability & Fast Learning

Languages

- **Bahasa Malaysia:** Excellent (Spoken & Written)
- **English:** Proficient (Spoken & Written)
- **Arabic:** Basic (Spoken & Written)
